Meaning:

Lord Muruga you are the one with the form, you are also one without a form. You are the one who has it all, and you are the one who does not have it all, you are present in the smallest, in the flower, in the ring of the bell, and in the Light. You are the embryo, you are the life, you are the destiny, and you are the fate. Please come upon us as our Guru and bestow your blessings.
